

What is Circuli?

Circuli is a blockchain-based ecosystem, combining initiatives of medical institutions, medical researchers, AI developers, patients, and public and private entities.

| 3 long-term goals :

1. **Decentralize medical AI diagnosis** by creating an ecosystem for health professionals, AI scientists, medical entities, and general users.
2. Facilitate a system where medical AI can be **transparent and interpretable**.
3. **Minimize the cost** and **maximize accuracy** of diagnosis through automation to benefit patients.

| Circuli Ecosystem

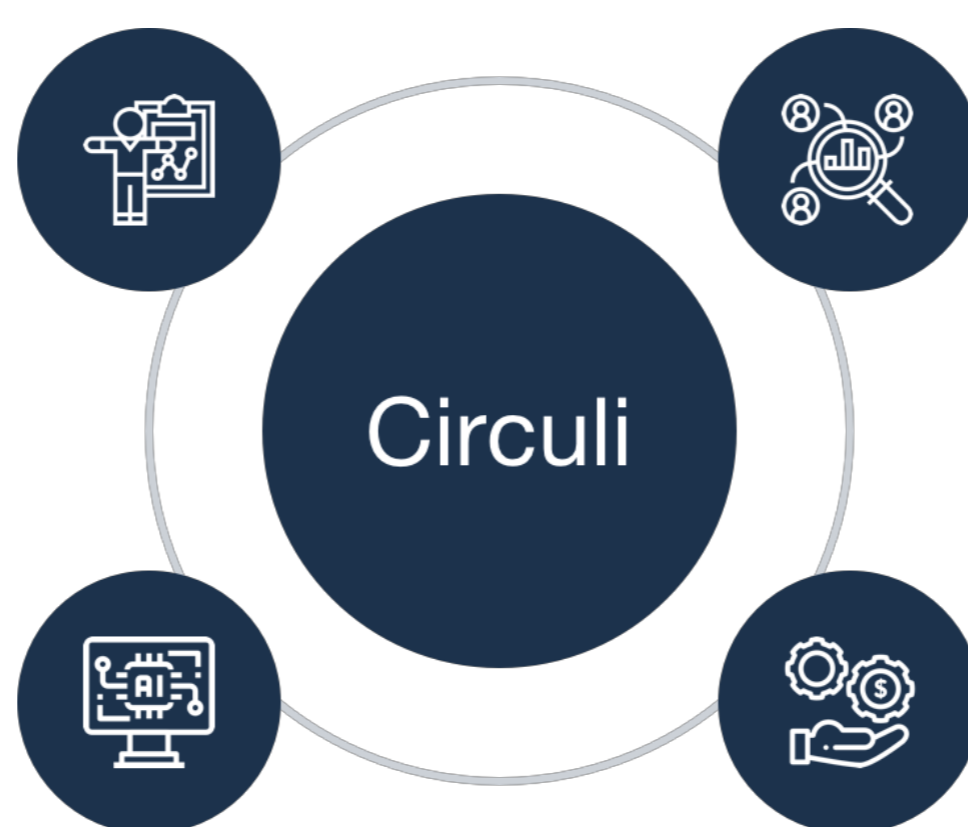

| Circuli Platform

AI Diagnosis

- Cheap, time efficient, and easy to access.
- Accurate and reliable diagnosis.

AI Algorithm Platform

- Where AI developers can train, develop, and provide their diagnostic algorithms

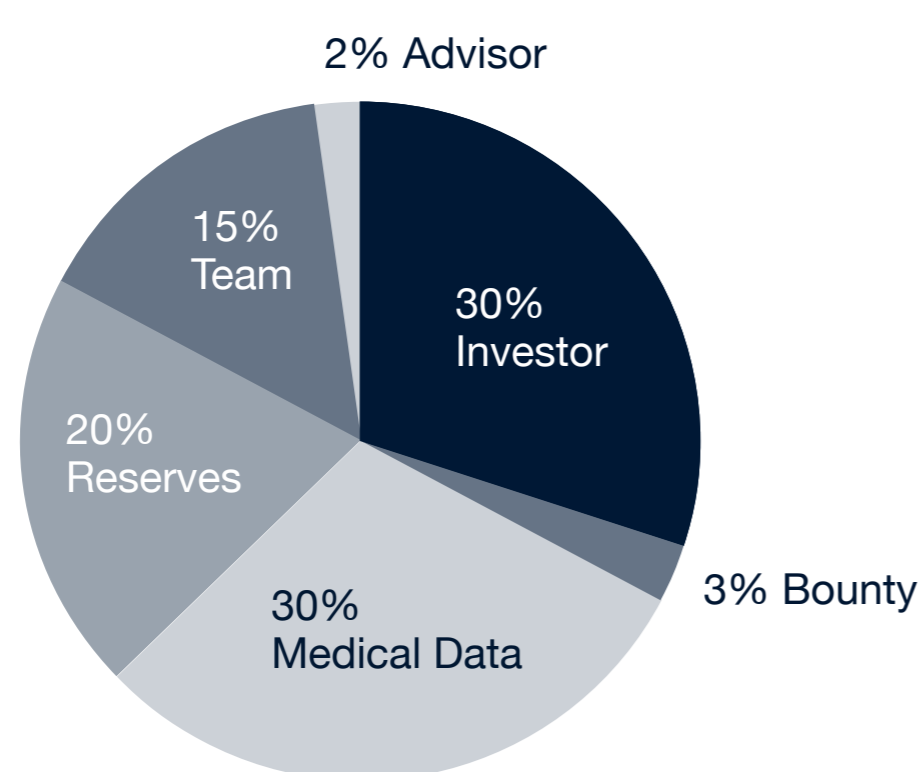

AI Diagnosis

- Participate in medical research
- Label large medical data sets

Incentives

- Encourage user participation through incentives and rewards

| Token Distribution

| Circuli Tokens

Total Issue	1,000,000,000
Base Price	1 CIL = \$0.08

| CIL Token

CIL token is a utility token used by platform participants. CIL enables the exchange, training and usage of the AI models on the platform. CIL is utilized for co-working ecosystem and monetization.

| What is ICO?

ICO, or Initial Coin Offering, is a mechanism for raising funds, under the terms of which digital tokens are sold for various liquid cryptocurrencies.

Utility tokens are used in their respective projects only, providing bonuses or used to pay for services.

| AI Healthcare Market

Artificial intelligence is becoming increasingly integrated with preliminary and medical imaging diagnostics. The global AI healthcare market is forecasted to be worth more than \$10 billion by 2025. The Circuli data ecosystem will leverage AI technologies for automated, decentralized healthcare.
